

Sinclair's partisan ploy to order its affiliates to broadcast a documentary made by a 3rd party typifies the shills that has become the US corporate media. Sinclair executives & employees have donated to RNC & Repuglicans, in openly supports the bush league. How about David Smith's prostitution arrest in Baltimore in 1996? And Mark Hyman's ties to the CIA? And the suits resulting from unauthorized use of POW & other Vietnam Vets in "documentary" by Sherwood? THE FAIRNESS DOCTRINE MUST BE REAPPLIED. BIG MEDIA - any industry - CANNOT POLICE ITSELF - LOOK AT THE "OPINION" TRASH THEY'VE "REPORTED" RATHER THAN THE NEWS! I've cut Comcast & will not pay the outrageous fees for the crap that is US TV / media. The Vietnam war was devisive - 58,169 mostly young Americans were killed & 3 Million Vietnamese - 1/2 civilians. But without those vets who spoke out against it, the politicians had no will to extract the US from this mistake. Wars are great for politicians - especially since their kids & grandkids don't have to fight & die in them - and they're great for economic "growth" while taxes are collected to pay for the toys offered up by the war profiteers. And now we have mercenaries with the ability to get around the oversight of Congress. DEMOCRACY IS DEAD; RIP 12/12/00! Michael Powell is a grotesque public embarrassment.
